

15 KHz Ultrasonic Generator 2600Watt (SE-6016)

Technical data

Model	SE- 6016
Power	2600Watt
Voltage	220V +- 10%
Frequency Range	14.40-15.20KHz
Frequency	15Khz

Features

SE-6015	SE Generator
Time mode	✓
Energy mode Time and /or energy mode	✓
Contact breaker	✓
Continuous welding	✓
Variable amplitude	✓
	(10% - 100%, In Increments of 1%)
TEST key	✓
Status LED on generator	Ultrasonic ready / active / error
LCD	✓
Carrying case	✓
Handle on generator	✓
Dimensions (WxHxD)	3.25"x7.75"x15"

Functions & Features

- ✓ Real time frequency automatic tracking display
- ✓ Welding modes: time, energy, and grounding.
- ✓ Amplitude division function
- ✓ Welding amplitude 10%-100% adjustable (1% accuracy)
- ✓ Amplitude compensation
- ✓ Mold impedance analysis + protection
- ✓ overload protection
- ✓ Voltage protection (input)
- ✓ Transducer voltage protection
- ✓ 485 communication
